Kevin J. Bozic, MD, MBA, FAAOS, named second vice president of the American Academy of Orthopaedic Surgeons

ROSEMONT, Ill. (March 15, 2021)—Texas orthopaedic surgeon Kevin J. Bozic, MD, MBA, FAAOS, was named second vice president of the American Academy of Orthopaedic Surgeons' (AAOS) Board of Directors. His new role is the first in a four-year term of volunteer service that includes his serving as president of the Academy in 2023-24.

Dr. Bozic is the inaugural chair of surgery and perioperative care at Dell Medical School at The University of Texas at Austin. He is an internationally recognized leader in orthopaedic surgery and value-based health care payment and delivery models. Since moving to Austin in 2015, he has built a department with over 300 regular and affiliate faculty across a diverse set of surgical disciplines, all of whom are focused on the Dell Med's mission of revolutionizing the way people get and stay healthy by developing new models of person-centered, multidisciplinary care that reward value and educating leaders who will transform health care.

Prior to joining Dell Med, he was the William R. Murray Endowed Professor and vice chair of orthopaedic surgery at the University of California San Francisco (UCSF) School of Medicine and core faculty of the Philip R. Lee Institute for Health Policy Studies. He holds a Bachelor of Science degree in biomedical engineering from Duke University, where he graduated magna cum laude, and an MD with Thesis degree from UCSF. He completed his orthopaedic surgery residency training in the Harvard Combined Orthopaedic Residency Program, and additional fellowship training in adult reconstructive surgery from Rush University Medical Center in Chicago. Dr. Bozic also holds a Masters in Business Administration from Harvard Business School (HBS), where he continues to serve as a senior institute associate in Professor Michael Porter's Institute for Strategy and Competitiveness.

Dr. Bozic's clinical practice is focused on the management of patients with hip and knee arthritis and painful hip and knee arthroplasties, which he does in collaboration with a multi-disciplinary team of providers focused on improving health outcomes that matter to their patients, including pain, function, and quality of life. He has over 18 years of experience as an adult reconstructive surgeon focusing on simple and complex primary and revision hip and knee arthroplasty.

Dr. Bozic has extensive research and policy experience in the field of value-based health care, centered on implementation and evaluation of value-based payment and delivery models. His research has been funded by the Agency for Health Care Research & Quality (AHRQ), the National Institutes for Health (NIH), the Robert Wood Johnson Foundation (RWJ), and the Orthopaedic Research and Education Foundation (OREF). He is actively involved in numerous regional and national health policy initiatives, including the Health Care Payment Learning Action Network (HCP-LAN) and the Yale Center for Outcomes Research & Evaluation (CORE) Performance Measurement Group. He is the co-founder and former chair of the California Joint Replacement Registry, past chair of the American Joint Replacement Registry, and a former member of the Agency for Health Care Research & Quality Effective Health Care Stakeholder Group. Dr. Bozic previously served as a member-at-large on the AAOS Board of Directors and was the chair of the Research and Quality Council among many other AAOS volunteer positions.

Dr. Bozic has been the recipient of numerous awards, including the UCSF Exceptional Physician of the Year Award, the Orthopaedic Research & Education Foundation Clinical Research Award, the American Bone & Joint Surgeons Marshall Urist Young Investigator Award, the American Association of Hip & Knee Surgeons James A Rand Young Investigator Award and Lawrence D. Dorr Award, the American Orthopaedic Association American-British-

Canadian Exchange and North American Traveling Fellowships, the Orthopaedic Research Society William Harris Award, the Hip Society John Charnley Award, and the Knee Society Chitranjan Ranawat Award, among others.
